Education

Punjab University College of Information Technology (PUCIT)

Bachelor of Science in Information Technology – CGPA: 3.49/4.0

Lahore, Pakistan

Dec 2022 – May 2026

Punjab Group of Colleges

Intermediate in Pre-Engineering – 1038/1100 (94.4%)

Lahore, Pakistan

2020 – 2022

Technical Skills

Languages: JavaScript (ES6+), Python, C#, C++, HTML5, CSS3, SQL

Frontend: React.js, Angular, Tailwind CSS, Framer Motion, Zustand

Backend: FastAPI, ASP.NET Core, RESTful APIs

Databases: MongoDB, SQL Server, TablePlus

Tools & Technologies: Git, GitHub, AWS, LangChain, Tesseract OCR, OpenCV, Docker

Core Competencies: Full-Stack Development, System Architecture, AI Integration, Data Structures & Algorithms

Experience

Full Stack Developer

Dec 2025 – Jan 2026

Arch Technologies

Lahore, Pakistan

- Gained hands-on experience building responsive web applications using React, Angular, FastAPI, and .NET
- Developed RESTful APIs and integrated them with frontend applications, ensuring optimal performance
- Applied full-stack development skills to deliver production-ready features with clean, maintainable code

Projects

AI-Powered Multi-Tenant E-Learning Platform (FYP) | Angular, FastAPI, MongoDB, LangChain, AWS 2026

- Built scalable SaaS platform supporting multiple institutions with independent branding and secure tenant-based data isolation
- Integrated LangChain and LLMs to create AI assistants providing content summarization, Q&A support, and adaptive learning

SnapSecure AI – Privacy-First Redaction Tool | FastAPI, React, Tesseract OCR, OpenCV

2025

- Developed AI-powered tool using Tesseract OCR and OpenCV to detect and redact sensitive information (SSNs, emails, phone numbers) from screenshots with 95%+ accuracy
- Built real-time image processing pipeline with FastAPI backend and React frontend, deployed on cloud platform

Nexus Music – Cloud-Native Streaming Platform | FastAPI, React 18, MongoDB, Zustand

2025

- Engineered full-stack music streaming application with anonymous identity management and automated YouTube metadata extraction
- Implemented state management with Zustand and optimized performance achieving sub-100ms page load times

TailorNow – Service Marketplace Platform | ASP.NET MVC, C#, SQL Server, JavaScript

2024

- Developed end-to-end tailoring marketplace with real-time booking system and role-based dashboards for customers, tailors, and admins
- Designed normalized SQL Server database schema and implemented Entity Framework ORM for efficient data management

Achievements & Certifications

TECH WAR Coding Competition: Competed in algorithmic problem-solving competition, strengthening data structures and algorithm proficiency

Open Source Contributions: Active GitHub profile with 5+ production-grade projects showcasing full-stack capabilities

Academic Excellence: Consistent high performer with 3.49/4.0 CGPA in rigorous BSIT curriculum
